Using WIBU CodeMeter Licensing Key with Ashlar-Vellum Software

Introduction

Some Ashlar-Vellum software utilizes a security system that requires the user's computer to connect to our servers through the internet on a monthly basis. For some customers, however, this proves impossible. For those users we offer a hardware key for the USB port.

There are a number of physical licensing keys available. One such is the CodeMeter key from WIBU.

Overview

The following steps are necessary to activate a new license or update an existing license on a hardware key. If merely moving a key that already contains a license to a new machine, only steps 1 and 2 are necessary.

- 1. Obtain the operating system driver from www.codemeter.com.
- 2. Install the operating system driver.
- 3. Create a license request file for the Ashlar-Vellum software and save it where it can be easily found.
 - a. For a new license refer to page 10.
 - b. To update an existing license refer to page 15.
- 4. Send the license request file ending in *WibuCmRac* to Ashal-vellum.
- 5. Delete the license request file from your system after sending.
- 6. Receive the license update file.
- 7. Import the license update file.

Obtaining the OS Driver

Operating system drivers are necessary to enable access to the security key. To download the drivers:

- 1. Visit www.codemeter.com.
- 2. Click on Downloads tab.
- 3. Choose the appropriate download for your operating system, either Windows 32-bit or Windows 64-bit.

Clicking the necessary link generally brings up a dialogue box similar to the one below. In it confirm that you want to save the CodeMeterRuntime.exe file to your computer.

	Name:	CodeMeterRuntin	1e32.exe (14.8 MB)
	Type:	Application	
	From:	www.codemeter.	de
is not kno	wn whether	this file is safe. Ar	e you sure you want
is not kno download	wn whether 1 it?	this file is safe. Ar	e you sure you want

Clicking Save opens the Save As dialogue window. Specify the location to save the file.

ancel

Installing the OS Driver

Once the driver is downloaded, double click the icon in the Downloads Window

or in the location where you saved the file to initiate the installation.

The following window is opened:

Click Next to continue or Cancel to exit the Setup Wizard.

To continue installation it is necessary to accept the terms in the License Agreement by placing the check mark in the bottom of the agreement.

The Print button in the bottom of the window prints a copy to read it more carefully. The Back button returns you to the previous step and the Cancel button stops the installation process.

Click the Next button to proceed with the installation.

It is necessary to choose the installation scope and folder in the next step prior to pressing the Next button.

The status bar shows the progress of the installation.

The final dialogue notifies that the installation of the operating system driver is completed.

Clicking the Finish button exits the Setup Wizard.

The icon Section appears in the icon tray. Clicking this icon opens the CodeMeter Control Center. In the next section there are instructions for operating it.

Creating a License Request File

To activate the Ashlar-Vellum software using the licensing key you will need to send a license request file to the company.

To activate a new license on this key, continue below. To update an existing license on this key, skip to page 15.

For a New License

Insert the Codemeter key into the USB port.

Click the CodeMeter logo 🕥 in the icon tray. The CodeMeter Control Center opens.

You may close the CodeMeter Control Center until you have received the license update file.

Sending the License Request to Ashlar-Vellum

E-mail the license request file, ending in .*WibuCmRac*, saved in the section above, along with your full contact information and serial number, to <u>support@ashlar.com</u>.

Be sure to verify that it is the correct request file by checking the date modified. If you are unable to e-mail, contact your reseller or Ashlar-Vellum directly at +1 800 877-2745.

Deleting the License Request from Your System

In order to avoid future confusion, please delete the license request file from your system after the e-mail has been sent.

Receiving the License Response from Ashlar-Vellum

You should receive a response to your request within 24 US business hours. Usually the response is much faster than that.

When you receive the license update file, save it on your machine where you can easily find it.

Importing the License Update

Click the CodeMeter logo in the *Start*>*All Programs* or in the icon tray menu. The CodeMeter Control Center window opens.

Press the License Update button
